

GERMANS ARE STEADILY FORCED BACK

HUNS STILL YIELDING TERRITORY TO ALLIES

AMERICANS AND FRENCH STILL SUCCESSFUL ALONG MARNE RIVER - STUBBORN RESISTANCE MAKES CROSSING HARD

FRENCH NEAR MONTDIDIER MAKE ADVANCE OF MILE ON FOUR MILE FRONT, TAKING SEVERAL TOWNS

London, July 22.—The Americans are continuing their advance and have captured the town of Jaulgonne on the Marne river, taking 300 prisoners.

The French have taken the heights and the town of Chassons to the eastward.

The French this morning began a new attack in the region to the northwest of Montdidier and captured Dulch-Le-Chateau.

The Americans on the front south of Soissons captured Busancy. The British took Pettichamp wood, near Marfaux, between the Marne river and Rheims with 200 prisoners and 14 machine guns.

In the Montdidier attack the French had made an advance of a mile along a front of four miles at 11 o'clock today.

Attacks by the French have now restored all the ground lost by the German counter attacks on Monday, in the Grisolles sector, seven miles northwest of Chateau Thierry.

North of the Marne river the French have gained the heights north of Courcelles, and they are holding the bend in the Chassons region as far as Treloup, which town is still in the enemy's hands.

In the fighting along the Marne river the French are experiencing great difficulty in affecting a passage at some points as they are being stubbornly opposed by the German infantry, supported by machine guns. The Germans are stiffening their resistance between Ourecq and the Aisne river and are bringing up guns.

Paris, July 22.—To the north of Montdidier on the Somme sector, a local operation last night enabled the French forces to occupy the villages of Mailly, Ralnoval, Sauvillers and Aubvillers, and took 250 prisoners.

With the American Army, July 22.—The Americans to the north of Chateau Thierry are now holding Eplédes and nearby villages. They have now bit into the territory northwest of

BIG HIT IS MADE BY THE MUSICAL CLUB

ENTERTAINMENT LAST NIGHT FOR BENEFIT OF ARMENIANS AT HOUSTON'S PLEASES HUGE AUDIENCE—ALL GOOD

A packed house at Houston's opera house last night kept the participants of the Musical Study club and their associates busy responding to encores until they must have been utterly wearied. In one of the most splendid entertainments either by local or outside talent that has been heard here heretofore.

It is quite generally recognized that Klamath Falls contains quite a number of persons of unusual musical ability, but it is only when these are grouped together in an appearance such as last evening that the fact is brought home forcibly to the general public. The entertainment displayed not only exceptional talent on the part of the performers, but indicated long and arduous preparation.

The chorus of the Musical Study club, assisted by a number of fine male voices of the city, and conducted by Charles Wood Eberlein, appeared in several selections in which the most difficult selections of the great masters were rendered with an accuracy and ease that was surprising.

It would be hard to say what numbers were the most excellent, as every selection given was a winner.

Mrs. Daisy Beckett Middleton of the University of Oregon was the only outside participant and her solo work was certainly appreciated by the audience. She graciously responded to a number of encores.

Mrs. Louise Lee Veye drew tremendous applause in her solo numbers. Her appearance costumed as Columbia with the chorus in the closing number of the recital made a most appropriate conclusion to the evening.

Mrs. Charlotte K. Satterlee never fails to delight her hearers with her rare talent on the violin, and last evening she appeared at her best. She was greeted with a storm of applause.

A quartet sung by Mrs. E. D. Johnson, Mrs. E. B. Henry, Burge W. Mason and Charles Wood Eberlein was greatly enjoyed.

Mrs. Charles Wood Eberlein, Miss Alice McCourt, Mrs. Burge Mason, Mrs. H. G. McCarthy, and Mrs. F. H. Coker, in different piano recitals were worth the price of the entire performance and deserve great praise for the effort and time in preparation necessitated by such an appearance.

Mrs. Eberlein and Miss McCourt were the accompanists.

GREAT SHORTAGE OF VEGETABLES IN BERLIN

New York, July 22.—There was a great shortage of vegetables in Berlin at the beginning of July, according to the Berlin Vorwaerts. Describing the condition in the Berlin public markets on July 5 the Vorwaerts says: "The stands were almost empty but there were many wanting food. For a head of cauliflower the size of a potato one and one-half marks was charged, and for a pound of lima beans six marks, Kohlrabi, young carrots and turnips were scarce and enormously high in price. Fifteen kohlrabi, small with much foliage, cost three to four marks."

COUNTY ROAD MATTERS TO BE DECIDED

TWO MEMBERS OF STATE HIGHWAY COMMISSION AND STATE HIGHWAY ENGINEERS HERE TO LOOK INTO ROAD CONDITION

Whether the main county and state highway from Klamath Falls north toward Bend will go thru the Wood River Valley or via Chiloquin is a question that will be determined in the next day or two by S. Benson, and R. A. Booth of the State Highway commission and State Highway Engineer Herbert Nunn, who are here from Salem to make a thorough investigation into the county road situation. Engineer J. McLeod is also a member of the party.

State surveyors will be in this evening, they announce, to commence the survey of the road between Klamath Falls and Jackson county. This road runs via Klamath Falls in Klamath county, but whether it will terminate in Ashland or Medford is a matter that has been left to the decision of the commission.

The road officials will spend the day looking over the situation immediately surrounding Klamath Falls and conferring with the County court. They expect to inspect the future post road between Klamath Falls and Olney, which is on the program for later construction. Tomorrow they plan to make a loop trip around the big Upper Klamath lake.

Commissioner S. Benson declared this morning that the extensive plans for road construction, which included a substantial amount of work in the Klamath district, had been curtailed by the war crisis to the work going under way last year, and in some cases the labor shortage might handicap even this to a considerable degree. While it is the idea of the commission to undertake the road construction first, which will serve the greatest number of people, the members are busy getting a comprehensive idea of the needs of the entire state, so that when normal conditions are resumed, the work can be pushed immediately along the most advisable routes.

Engineer Nunn said it was astounding the money that was being raised by the residents in the different localities to meet the terms of the Shackelford bill and to get state and Federal money for road purposes. One million and nine hundred thousand had been spent in the last two years, he said, and he estimated that this figure would be swelled to twenty million in the next four years.

HUNS WILL ATTEMPT TO TERRORIZE AMERICANS

Washington, July 22.—The fact that a submarine attacked a tug and barges without warning off the Massachusetts coast yesterday, is taken as an indication that the Germans may be undertaking to bring their campaign of frightfulness to America.

NO RED CROSS MEET TONIGHT

Owing to the fact that there is no business of importance to come up before the Red Cross executive committee, it is announced that the regular meeting at the White Pelican hotel will not be held. The next regular meeting of the executive committee and officers will be held August 6th, unless occasion should arise for a special meeting.

TRAPPED HUNS NOW DESTROY MUNITIONS

FRENCH CROSS CHATEAU THIERRY ROAD OPPOSITE BUSANCY - GERMANS UNABLE TO USE SUPPLY RAILROAD

By Associated Press
With the French Army, July 22.—There are signs everywhere today that the Germans are destroying their material and munitions in the pocket between Soissons and Rheims, preparatory to an entire evacuation of that area.

The Germans are having great difficulty in maintaining their communications, and are unable to use the railroads leading northward owing to the Allied aviators and artillery.

With the American Army, July 22.—The Allied advances were continued yesterday south and westward. The Germans are slowly continuing their retreat. The Americans took two additional towns north of the Marne today. They also took another town in the Soissons region and the French took another town in that section, improving their position and covering the enemy lines of communication.

Paris, July 22.—Pushing in south the French crossed the Soissons-Chateau Thierry road north of Villemonfort, opposite Busancy.

With the American Army, July 22.—The Germans are clinging desperately to their line south of Soissons, trying to protect their flank.

The Americans fighting on the front have completely cut off the narrow gauge railroad leading to Chateau Thierry. The pounding process is being conducted by the Allies.

Dateless—If the new drive of the Allies develops southward of Rheims their nut cracker will be in full motion.

A Berlin magazine states that the Americans suffered heavy losses.

An Atlantic Port, July 22.—A large steamer with a part of her smoke stack and her bridge damaged, in tow of a government tug off the southern New England coast, is reported by the captain of a steamer which arrived here today. The ship was discovered near the scene of the recent submarine operations and is believed to be a Belgian relief steamer.

PHEASANTS THRIVING IN COUNTY

That the Chinese pheasants sent over to Klamath county several years ago from the Willamette valley as an experiment are thriving and gradually increasing, is the statement made by R. W. Tower, a prominent resident of the Keno district, who took a number to liberate in his district and who has been looking after their welfare.

Mr. Tower declares that the birds seem to be standing the winter season of Klamath in good shape. He has seen them near his ranch on numerous occasions this year.

The quail, many of which died in the county winter before last, are now rapidly increasing again, Mr. Tower declares.

SUPERVISING NURSE NAMED

In making the announcement of the Klamath county Red Cross department heads last week, the name of Mrs. Paul Bogardus was omitted. Mrs. Bogardus was named by the Red Cross chapter as supervising nurse for Klamath county.

NEW BATTLE LINE BEING FORMED ON WEST FRONT

FRENCH AND AMERICAN FORCES CROSS MARNE ALONG TWELVE MILE FRONT—FRENCH SUCCESSFUL NEAR MONTDIDIER

ENEMY MAY RETIRE AS FAR AS VESELE RIVER—CONCENTRATION OF TEUTON TROOPS AT PERRES SHOWS THIS MOVE

By Associated Press
The French and American forces have crossed the Marne river over a twelve-mile front between Jaulgonne and Reuil, near the place where the German line crossed the stream when their offensive was at its height.

The Allies are now making important progress all around the salient where the Germans were caught by the Allies in their attack Thursday.

A new French onslaught in the Montdidier sector may have an important bearing on the development of the military situation of the whole front.

It is believed that the enemy may choose a line along the Ourecq for further offensive operations, but the success of the Allied troops north of this stream may compel their retirement at least as far as the Vesere river.

This retirement is said to be indicated by the concentration of the German troops at Fismes and other points along the Vesere river.

The French on the north of Montdidier now have control of positions which dominate the Arre valley for several miles along a most vital sector.

MAJOR THEODORE ROOSEVELT JUNIOR, IS WOUNDED

Paris, July 22.—Major Theodore Roosevelt, Jr., was wounded while leading an attack on the machine gun nest southwest of Soissons. A machine gun bullet hit him behind the knee. No bones were broken and he will be able to return to the front in about six weeks.
